Game Center Version 2.0.1
Release Date: December 22, 2025

Version 2.0.1 includes critical bug fixes and stability improvements over version 2.0.0. This is a maintenance release focused on improving reliability and fixing edge cases discovered in production.

* Enhanced error handling in GraphQL API responses

* Fixed score calculation edge cases

* Fixed race condition in score submission

* Scores reset on server restart (planned database migration in 2.2)

* Full achievement system with unlock conditions
